Secret Project: Dracu-Riot! Honey!
Production Duration: January 15, 2013 ~ February 09, 2013
History: Chilling out one day on IRC, Amerun proposed a one-shot manga project called, Dracu-Riot. Seeing an opportunity to work on an interesting project, two of our group's admins who were present during that conversation quickly jumped at it. At first, it was thought that the project was a one-shot, but it turns out it's a parallel to the main Dracu-Riot story, called 'Dracu-Riot! Honey!' other known as 'Erina's Story'. Production took a bit longer than originally planned due to the nature of the project being a 'secret' and the AFS staff was made aware of the existence of this project only a few weeks after the initial work. Though this has been identified as an ongoing manga, there is no indication that further releases will be made since the only available chapter circulating so far is only chapter 1, if more chapter raws will turn up we'll be more than glad to continue, but for now this is all we can provide.
